The European Commission (EC) has authorised EUR1 billion (\$1.08 billion) in Greek state aid to help fund the development of two solar-plus-storage projects. The total capacity of ...

Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW ...

The European Commission has approved EUR1 billion (\$1.08 billion) of Greek measures under EU state-aid rules to support two utility-scale solar projects with lithium-ion ...

Without batteries or pumped hydro plants capable of absorbing excess solar output at midday and releasing it during evening peaks, curtailments will only grow. ...

The European Commission (EC) has approved EUR1bn (\$1.08bn) in Greek state aid to support the development of two solar-plus-storage ...

The Seli Project entails the construction of a 309 MW photovoltaic unit with an integrated lithium-ion battery energy storage system. This project aims to optimise electricity ...

The European Commission (EC) has approved EUR1bn (\$1.08bn) in Greek state aid to support the development of two solar-plus-storage projects. These projects, which will ...

The Seli Project entails the construction of a 309 MW photovoltaic unit with an integrated lithium-ion battery energy storage system. This project aims to optimise electricity generation and grid ...

The European Commission has approved EUR1 billion (\$1.08 billion) of Greek measures under EU state-aid rules to support two utility ...

The European Commission has approved a EUR1 billion (US\$1.1 billion) state aid measure for Greece to support two solar-plus-storage projects.

The European Commission approves EUR1 billion in state aid for Greece's Faethon and Seli solar projects, set to add 813 MW of ...
